

Appl. No.: 10/773,906
TC/A.U.: 3711 Docket No.: B03-70
Reply to Office Action of September 29, 2005

ELECTION AND REMARKS

In the Office Action, the Examiner indicated that the Applicant must elect a single species for prosecution. The Examiner identified the following species:

- I. Claims 1-22 drawn to golf ball where the inner core specific gravity is less than or equal to the outer core specific gravity; and
- II. Claims 28-29, drawn to golf ball where the outer core specific gravity is less than or equal to the inner core specific gravity.

The Examiner further indicated that claims 23-27 are currently deemed generic.

For continuing the prosecution on the merits, Applicant elects Group I, claims 1-22 and generic claims 23-27.

Consequently, claims 28 and 29 have been cancelled from consideration. However, Applicant reserves the right to file one or more divisional applications directed to any subject matter not claimed in the current application.

Conclusion

Based on the remarks set forth above, Applicant believes that the claims of the subject application are acceptable for consideration on the merits. Should the Examiner have any further concerns or believe that a discussion with Applicant's attorney would further the prosecution of this application, the Examiner is encouraged to call the attorney at the number below.
